## DETAILED ACTION

### *Reasons for Allowance*

1. The following is an examiner's statement of reasons for allowance: In response to the Office Action dated October 3, 2005, applicant's arguments, see page 6 and 7, filed on January 5, 2006, with respect to claims 1-6, including newly submitted claims 7-21, have been reviewed and fully considered.

According to applicant's remarks/arguments based on the amendment filed January 5, 2006, as indicated on page 6 and 7, argues that the prior art Chang (Pub.No.US2002/0039205) whether views alone or in combination with Mai (USP 6,002,508) does not show or describe "a transparency scanning module disposed on the scanning device cover, where in the transparency scanning module includes plural first power connectors formed on the transparency scanning module adapted to couple to plural second power connectors formed on the scanning device cover, wherein where at least one of plural first power connectors are electrically coupled to the light source disposed on the transparency scanning device".

Applicant's arguments are found persuasive, and the last Office action of October 3, 2005 has been withdrawn. Therefore, claims 1-9 have been Allowed for the reasons the prior art searched and of the record does not teach or suggest the claimed application as amended. Claims 10-21 has been cancelled as indicated by the Examiner amendment.
